**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election of Species of figures 15 and 16 in the reply filed on 05/02/2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Note, only claims 6-8, 11, and 14-16 are read on figures 15 and 16 instead of claims 6-16.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 6-8, 11, and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Simon (U.S. 4,425,908).

4. Simon discloses the claimed invention in figures 1-4 and 10-13, a sleeve (58) adapted to be disposed substantially at a distal end of the filter device (10), said sleeve (58) being adapted to apply a restraining force to the plurality of struts (22) of the filter device (10) to prevent the plurality of struts (22) from extending outwardly; at least one actuating member coupled to said sleeve (58), and wherein said at least one actuating member is adapted to cause said sleeve to move in a proximal direction upon moving said at least one actuating member in said proximal direction. Note: a recitation of the intended use of the claimed invention must result in a structural difference between the

Art Unit: 3734

claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nott et al. (U.S. 5,709,704) discloses a filter device with sleeve disposed thereof.
